Subject: Pinellas County Small Business Enterprise Program Renewal Application Approved

Dear Heather Loggins:

Congratulations! Your Renewal application for designation as a Small Business Enterprise in the SBE Program is approved. The approval is contingent upon your firm successfully completing the eligibility listed below. We have designated Electrical Design Associates, Inc. as eligible to continue to participate in the SBE program, and sheltered market program with an effective date of 10/31/2022. This certificate is specific to Pinellas County and covers only the company that is listed in this letter, not any other company with which you may be associated. Your firm will appear on the list of approved registered vendors.

As part of our SBE program, **we do require you to register your business** in our SBDC system as well. This registration will make it easier to sign up for classes and any time you need one-on-one free counseling for questions with procuring contracts with Government (County or Federal). Please visit our website, at <https://www.pced.org/page/Consulting>, to register and learn more or call 727-453-7200 for your consultation. During the registration process it will ask for nature of "counseling requested", select from any of the boxes you wish and then scroll down to the bottom and in the additional area please indicate "*Pinellas County SBE*" in the text box.

Please visit our website, at <https://pinellas.obsres.com/economic/Info.aspx?EventID=3005>, to register and learn more or call 727-453-7200 for your consultation. Failure to complete the workshop and/or consulting session could result in removal from the program.
